

On Charity.

Girls, Do Not Talk Blame.

Girls, do not talk blame. It is a bad habit, and one that will do you no good. If you are a young lady, when there is an elegant, systematized language that he can just as well use. But don't you do it. You can have no idea how it sounds to ears unused to it, to hear a young lady, when she is asked to attend a place of amusement, answer, "Not much," or, requested to do something she does not wish to, "Can't see it." Not long ago I heard a young miss, who is educated and accomplished, say, in speaking of a young man, that she intended to "go for him," and when her sister asked for assistance at some work, she answered "Not for Joe."

Now young ladies of unexhaustable character and easily good education, fall into this habit, thinking it shows smartness to answer back in slang phrases; and they soon slip off from their tongues with a saucy petulance, that is not ladylike or becoming. Young men who talk in that way do not care to hear from the lips they love and admire. It sounds much coarser than "I bet," or "for bet," is well enough between men who trade horses or lands, but the contrast is positively abhorrent when a young man is holding the hand of his ladylove, to hear those words issue from her lips. They seem at once to surround her with the rougher associations of his daily life, and bring her down from the pedestal of purity, whereon he had placed her, to his own coarse level.

And really, slang does not save time in the use of language, as an abbreviation. "No" is shorter and more decided than "Not much," and "I know," or "I am sure," is quite as easily said as "I'll bet." More than one promised wedding has been indefinitely postponed by such means; for however remiss young men may be themselves, they look for better things in the girls of their choice; and it does not help them mend a bad habit to adopt it too. Besides two wrongs never make a right. I know the bright-eyed girl who reads this will think the matter over, and say I am right.

MAKING THE BEST OF IT.—Always make the best of what happens to you. A little self-control and right feeling will help you to this. To fret and scold over accidents and disappointments is wrong, and sure to make one miserable. The example of a child, as told in the following incident, is well worth saying to heart. She was only three years old. To amuse a homesick cousin she brought out her choicest playthings. Among these was a tiny trunk, with bands of gilt paper for straps—a very pretty toy—but Freddy bent the lid too far back, and broke it off. He did not mean to do this, and when he saw what he had done, he was frightened and began to cry. Then dear little Minnie, with her eyes full of tears, said: "Never mind, Freddy; just see what a cunning little cradle the top will make." What that sweet and thoughtful!

President Grant is being honored with a good deal of abuse in low quarters just now. There are some men whose associations have been so vulgar, whose education has been so corrupting, and whose habits have been so villainous, that they cannot comprehend how a man can bestow patronage without selling it. The argument is: "If I had a chance to sell offices, I would do it—therefore the President does it. If I had all the wine and whiskey I wanted, I would revel in it—therefore the President is a drunkard." It is always so with these creatures. It is impossible for a rake to believe that any man can treat woman with respect.—Chicago Post.

They are puzzled. The Chicago Times declares that "nothing is to be gained by continuing to agitate the nigger question." The Cincinnati Enquirer insists that there is nothing like the nigger question, and adds: "If we cannot have that, what is the use of a democratic political organization? Certainly, sure enough; why did that question occur to the astute Enquirer before? What is the use of a Democratic political organization?" We have often thought of it.—Chicago Post.

ACCUMULATION.—The power of compound interest has been frequently illustrated in print but cannot be too much pressed upon the attention of those who, early in life have a little money to lay by. No better investment can be found in the world, of the average of the productive, than a sum put into a bank in youth and allowed to accumulate by the force of compound interest alone.

Three little Wisconsin children were fishing the other day—two boys and a girl. The older boy called to the girl, "Oh, Johnny's got a bite!" The girl responded, "Oh, my sakes; and such a little boy—only reads in the primer."

A Connecticut minister, in time of drought prayed for rain in a more specific way than is customary. He asked not for thunder showers that would carry away the bridges, but for a drizzle-droze that would last a week.

Sandusky City boasts of 450 drinking saloons and yet is not able to support an English Democratic newspaper. How is that for high?

Those who should support the paper support the saloons. That's what the matter.—Fremont Journal.

Miss Louisa Stratton, of Cane country, Indiana, challenged any man in the State to ploughing match with her. She proposed a two-horse team, each to plough a furrow in the same field.

LETTER FROM COLUMBUS.

INSTITUTION FOR THE DEAF AND DUMB.

COLUMBUS, O. June 15, 1870.
Dear Sir:—I am one of the members of the Clinton Society. Thinking that the readers of the Gazette take an interest in exhibitions, I'll proceed to give a short account of one that took place here. The second annual exhibition of the Clinton Society came off in the chapel of the Institution Friday evening, the 10th inst. Our large and beautiful chapel, well lighted up, was filled almost to its capacity.

To give the reader some idea of the thing I submit the programme: 1st. Prayer.—P. M. Park, 2nd. Secretary's Report, G. Myers, 3rd. Declaration, "Search for Wisdom," Miss Fessenbeck, 4th. Declaration, "Parrhasius and the Captive," J. F. Heyl, 5th. Oration, "Take Courage," A. C. Powell, 6th. Dialogue, "The Gypsy Girl," (From Oliver Optic's Boys and Girls) six ladies and four gentlemen took part in this. 7th. Address of the President, J. M. Park, on the History of the Society. The delivery of the first declaration and the appearance of the young lady on the stage were indeed magnificent. The oration was well delivered and the speaker gave a vivid illustration of the subject, handling it in a masterly style. But the most interesting part of the evening's exercises, and that which created the most amusement, was the acting of the dialogue, which was indeed interesting and worth seeing.

The President gave a glowing account of the history of the Society and of the education of the Deaf and Dumb; but spoke chiefly on the subject of the Society. At the close of his address Hon. Kent Jarvis, of Massillon, was introduced and addressed the Society in a neat little speech, it being interpreted to the pupils in the sign language by Mr. Fay, the Superintendent of the Institution. Benediction was then pronounced by the same person, and thus closed the second exhibition of the Clinton Society.

THE DEAF AND DUMB.—The tedious work of examining the classes commenced Tuesday afternoon, the 7th, and occupied a week. There were 19 classes, and the most important of these examined were the Artistic and Musical classes. The course of study pursued by the latter during the year were, History, Philosophy, Geography, Botany, Astronomy, Arithmetic, and Algebra; also, Compositions once a week; Phrase writing; Grammatical diagrams, and Drawing. One or two of the members have also studied Latin preparatory for entering the National Deaf Mute College, at Washington, next fall.

CLOSING EXERCISES.—On Wednesday afternoon, at half past two o'clock, the pupils assembled in the chapel to witness the closing exercises of the school year. The stage was tastefully decorated with flowers, and on it were seated the teachers and officers of the Institution. The Superintendent gave some encouraging advice to the pupils, and also congratulated them on the success they had attained, both in school and at their trades. This was followed by distributing testimonials to some of the pupils of both sexes for meritorious services. Then followed the giving of diplomas to five, who this year completed the seven years' course to which they are entitled. These were all that remained of the exercises.

The Superintendent then delivered a short discourse from Numbers, 6th chapter, 24th, 25th, and 26th verses. This was followed by prayer, and according to the instructions of the Trustees, he pronounced the Academic year closed for 1869-70, closed.

STATE FARM.—The latest agony in ladies' shoes is, seven inches high, with an inch and a half heel! A Spanish insole, arched sole, and a high heel, with an inch and a half rubber tip! I don't wonder, the sound, and the cost from \$8 to \$30 a pair.

"The fact is," said an elderly wife, "I can't wear 'em, they're too high, and I don't know where to complain. I don't wonder," she continued, "that when God made Adam he went right to work and made a woman to tell him what to do."

IRON FENCING

GRATING, RAILING, &c.

MY PATENT IRON FENCE IS CHEAP.

It is more substantial, more ornamental,

more practical, and in every respect a great

improvement on any other fence that has

been used. The patent consists in the interlocking

between the panels of a double

Yielding Fence, in itself ornamental and strong,

which allows for the expansion and contraction,

so which all iron fencing is subject to—that

being the cause of so many crooked fences and

unmanageable gates.
